Sale will be sold on a Ticket Scale Basis
Sale includes multiple units with different prescriptions: Hardwood Gap Unit, Aspen Clearcut Unit, Oak Seed Tree Unit, Hardwood Seed Tree Unit
HARDWOOD GAP UNIT Gaps are noted on the map. There are 6-8 purple painted two dot marks facing towards the center of the gap with a purple slash on the backside of that same tree. Gaps are 66’ in diameter and 330’ apart. Sever all hardwood stems 1” in diameter and greater within the gaps. Do not harvest hemlock, cedar, or pine within gaps. There are no trees marked for removal between gaps. Contractor is responsible for navigating between the gaps is such a way to minimize damage to residual trees. Minimal operational trees may be taken focusing on the smallest and lowest quality trees.
ASPN CLEARCUT UNIT: Harvest all hardwood stems 2” in diameter and larger. Harvest all fir and spruce 4” and larger. Do not harvest any pine, cedar, or hemlock. 2 Grouse trees were marked to provide for male grouse drumming habitat. These trees were painted with a large X on both sides of the tree with a ring of paint at 5’ above ground level using purple paint. Sever these trees above the purple paint ring and leave the trees adjacent to the stump as close as possible on the ground.
OAK SEED TREE UNIT: Harvest all hardwood and fir/spruce 4” in diameter and larger not marked with purple paint. Leave all pine, cedar, and hemlock.
HARDWOOD SEED TREE UNIT: Harvest all hardwood stems 2” and larger. Harvest all fir/spruce 4” in diameter and larger not marked with purple paint. Leave all pine, cedar, and hemlock.
Access will be off Van Stone road.
Sale boundaries: As noted on the map the main road into the sale is the western boundary where no red paint was used. Everywhere else red paint was used to marked the sale boundaries and units.
Portions of this sale are on clay soils so extreme caution must be used outside of frozen ground conditions. County reserves the right to prohibit operations if damage occur or if damage is anticipated.
Do not cut snags except for those that pose a safety hazard
To comply with the Best Management Practices for Invasive Species: Prior to moving equipment onto or off of the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
Upon completion of the sale the access road must be bermed.

** 44% maple, 55% ash

Bid will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

*Approx. 65% Maple, 30% Basswood, 2% Birch, 2% Ash, 1% Other Hardwood

Special Restrictions:
- Sale sold as a 3 year contract
- Frozen or Dry Ground harvesting only in portions of each unit.
- Unit B: No harvesting spring break-up to July 15th

Acres: 86
TRACT 35-18 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a seed tree prescription with an estimated average residual basal area of 6 ft².
   2. Harvest unit B has a group selection prescription with an estimated average residual basal area of 83 ft².
   3. Harvest unit C has an overstory removal prescription with an estimated average residual basal area of 6 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all hardwood stems and balsam fir 2” and greater.
   2. In unit B, there are 100 ft diameter purple painted canopy gaps (8-12 two dot purple painted trees on perimeter facing in towards the gaps) harvest all hardwood and balsam fir stems as well as sever all trees 1” diameter and greater with the purple painted canopy gaps.
   3. In unit C, harvest all hardwood stems 4 inches and great not marked with purple paint.
   4. In unit A, leave all purple marked trees and leave all conifer except balsam fir.
   5. In unit B, leave all conifer except balsam fir.
   6. In unit C, leave all conifer and all purple marked trees.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. In unit B, no sale operations permitted between break up and July 15th.
   2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   3. Sale operations may only occur when the ground is frozen or exceptionally dry conditions, as determined by Bayfield County, in some portions of each unit.
   4. A dog sled trail system affects this sale, as mapped. a) When snow is on the ground, maintain a packed snow base on dog sled trails. b) When snow is on the ground, do not block intersections with snowbanks or berms after plowing. c) on the weekend of the Apostle Islands Sled Dog Race, no hauling will be permitted on any trails used by the race during Saturday or Sunday mornings, as determined by the sale administrator.
   5. In 2018, oak wilt was officially confirmed in Bayfield County. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by the county, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. This sale will be sold as a three (3) year contract.
   2. In unit B, avoid skidding or traveling through all existing gaps indicated on the sale map.
   3. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   4. Minimize damage to advanced regeneration in Unit C.

Special Restrictions:
- Unit A: No sale operations from break-up to July 15th
- Frozen or Dry Ground Harvesting Only
- No whole tree skidding.
- Sold as a 3 year contract.

This map is not a survey of the actual boundary of any property this map depicts.
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. **PRESCRIPTION:**
   1. Harvest unit A has a thinning prescription with an estimated average residual basal area of 81 ft².
   2. Harvest unit B has a clearcut with reserves prescription with an estimated average residual basal area of 35 ft².
   3. Harvest unit C has a clearcut with reserves prescription with an estimated average residual basal area of 21 ft².

B. **HARVEST REQUIREMENTS:**
   1. In unit A, harvest all ash and orange marked trees. Leave all conifer.
   2. In unit B, harvest all hardwood stems 2 inches and greater. Leave all conifer.
   3. In unit C, harvest all hardwood stems 2 inches and greater not marked with purple paint. Leave all conifer and purple marked hardwoods.

C. **OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:**
   1. The blue paint line indicates private property. No equipment or trees may cross the line.
   2. In unit A, no sale operations permitted between break up and July 15th.
   3. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   4. Sale operations may only occur when the ground is frozen or exceptionally dry conditions as determined by Bayfield County. There is some higher ground scattered throughout unit A.
   5. Sale may be whole tree harvested but not whole tree skidded due to possible damage to the residual trees. Short wood logging or pole skidding will be allowed if purchaser can demonstrate that it can be done without causing damage to the residual stand.

D. **ACCESS AND ROADS:**
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. **OTHER:**
   1. In unit A, minimize damage to existing regeneration.
   2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   3. The northeast portion of the sale will be accessed either by a freeze down crossing or off highway 27 if access is approved by DOT.
   4. **This sale will be sold as a three (3) year contract.**

TRACT 14-19 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a clearcut prescription with an estimated average residual basal area of 2 ft².
   2. Unit 2: Harvest is a clearcut prescription with an estimated average residual basal area of 20 ft².

B. HARVEST REQUIREMENTS:
   1. Unit 1 and Unit 2: Harvest all hardwood 2” dbh and greater. Harvest all fir greater than 4” in dbh and greater. Leave all oak, cedar, pine.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Unit 1: Dry or frozen ground harvesting. Unit 2: Frozen ground harvesting only.
   2. 3-4 grouse trees were marked throughout the sale area. These trees are marked with a purple paint with a ring and X. Harvest these trees just above the red ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
   3. Sale boundaries are a combination of blue paint, red paint, alder brush.
   4. Blue paint line denotes the boundary between county and private land. No trees or equipment may cross the blue paint line.
   5. In the unit south of Star Route red paint marks the southern boundary and blue on the east and west line. The north boundary is alder brush.
   6. Do not damage any survey monumentation.
   7. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Culverts will need to be installed along Star Route to gain access into the sale area. Contact the township prior to installation of culverts. Short segments of new road will need to be constructed to access the harvest units. The Town will require removal of these culverts at the end of the timber harvest.
   2. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 35-19 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Aspen coppice harvest. Residual 3 sq.ft./acre of white spruce.
   2. Unit 2: Red maple overstory removal harvest. Residual 7 sq.ft./acre of yellow birch and 2 sq.ft./acre of red oak.
   3. Unit 3: Northern hardwood overstory removal. Residual 11 sq.ft./acre of yellow birch and 1 sq.ft./acre of red oak.

B. HARVEST REQUIREMENTS
   1. Unit 1: Cut all trees greater than 2” diameter, EXCEPT: DO NOT HARVEST OR DAMAGE white spruce, and DO NOT HARVEST OR DAMAGE oak saplings 4” dbh and smaller.
   2. Units 2 and 3:
      i. Cut all trees greater than 4” diameter, EXCEPT: DO NOT HARVEST OR DAMAGE yellow birch or red oak.
      ii. Do not damage established seedlings and saplings in Units 2 and 3.
      iii. The County may halt harvesting operations if damage to seedlings and saplings is determined by the County to be excessive.

C. OPERATIONAL REQUIREMENTS and SEASONAL RESTRICTIONS:
   1. Sale operations may only occur during dry or frozen conditions as determined by Bayfield County.
   2. Ditches and non-navigable areas of concentrated flow along the main haul road carry significant runoff. Minimize crossings of these ditches. Where crossings are necessary, protect the crossings using pole fords with an integrated culvert to ensure they will keep up with water flow or they may be bridged with crane mats, or similar means as determined by sale administrator. Restore ditches and culverts to their original condition before closing sale, as determined by sale administrator.
   3. Riparian Management Zones have been identified. Do cross or harvest within these RMZs.
   4. Sale boundaries are red paint lines or cover type changes, as indicated on map.
   5. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking along the main haul road will be east of the culvert, and along the western third of the sale near the “young aspen” pocket north of the haul road. Do not deck wood where road ditches will be damaged.
   3. Decking of wood along town roads will not be allowed without permission from Bayfield County.
   4. A dog sled trail system affects this sale, as mapped. a) When snow is on the ground, maintain a packed snow base on dog sled trails.  b) When snow is on the ground, do not block intersections with snowbanks or berms after plowing.  c) on the weekend of the Apostle Islands Sled Dog Race, no hauling will be permitted on any trails used by the race during Saturday or Sunday mornings, as determined by the sale administrator.  D) WEST ACCESS has fewer trail crossings than EAST ACCESS.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   2. Do not damage survey monumentation.

* Ash pulp includes 15% basswood and 15% white birch.  
**Red maple sawlogs includes 1MBF of Ash sawlogs.

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

This map is not a survey of the actual boundary of any property this map depicts.
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. The harvest unit has a thinning prescription with an estimated average residual basal area of 83 ft$^2$.

B. HARVEST REQUIREMENTS:
   1. Cut all pine and other species in every third row (cut one row, leave two rows). Cut rows are not marked with paint. Logger will determine cut rows to the satisfaction of the Sale Administrator.
   2. Leave and avoid damage to all residual trees.
   3. Harvest all trees within 50’ of Webster Road right of way.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries consist of red painted line along west, mature red pine stand to the south, freshly planted pine stand to the southeast, Webster road to the east, aspen to the north, and blue painted line to the North.
   2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   4. Do not cut snags except for individuals that pose a safety hazard.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   2. Do not damage any survey monumentation.

Harvest Unit 2-5 must be frozen or dry conditions.
*See supplemental requirements for temporary bridge information. Sale will be on a 3-year contract.
TRACT 46-19 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest Unit 1: Aspen coppice with 9 ft² reserved
   2. Harvest Unit 2: Aspen coppice with 9 ft² reserved
   3. Harvest Unit 3: Northern Hardwood single tree selection with 84 ft² reserved
   4. Harvest Unit 4: Swamp Hardwood seed tree with 8 ft² reserved
   5. Harvest Unit 5: Northern Hardwood patch selection (25 patches 0.8-2 acres to be cut)

B. HARVEST REQUIREMENTS:
   1. Harvest Unit 1: Harvest all trees 2" or greater, do not harvest all birch and red oak.
   2. Harvest Unit 2: Harvest all trees 2" or greater, do not harvest yellow birch and conifer.
   3. Harvest Unit 3: Harvest all orange marked trees, leave undamaged all unmarked trees.
   4. Harvest Unit 4: Harvest all trees 4" or greater, leave undamaged all purple marked trees along with all cedar, yellow birch, and elm.
   5. Harvest Unit 5: There are purple painted canopy gaps (15-20 two dot purple painted trees on perimeter facing in towards the gap) harvest all merchantable trees as well as sever all trees 1" diameter and greater within the purple painted canopy gaps. Do not harvest all trees outside of patch, marked patch trees, and oak trees with purple ring around them within the patch. Patches range in size from 0.8-2 acres each.
   6. Leave all snags unless they pose a safety hazard.
   7. Sale may be harvested as round wood to a 4" top or whole-tree.

C. OPERATIONAL REQUIREMENTS:
   1. Sale is being sold on a ticket scale basis.
   2. If harvest will utilize the whole tree, 1 in 10 ≤4" diameter tops must be left scattered throughout the sale.
   3. Sale may be whole tree harvested but not whole tree skidded due to possible damage to the residual trees. Short wood logging or pole skidding will be allowed if the purchaser can demonstrate that it can be done without causing damage to the residual stand.
   4. Sale is bounded by red paint line, blue paint line and purple painted gaps.
   5. Blue painted line indicates private property, no equipment or felled trees may cross this line.
   6. A snowmobile trail runs adjacent to parts of the sale. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles (sign as needed). Avoid damage to signs and trail markers. If the primary haul route utilizes a portion of the snowmobile trail. 4. Excessive damage (beyond normal wear and tear) to the snowmobile trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.

D. SEASONAL RESTRICTIONS:
   1. Harvest Unit 1 has no seasonal restrictions but may require dry conditions.
   2. Harvest Unit 2-5 will be limited to frozen or dry conditions as determined by the sale administrator.
   3. No sale operations will be permitted between breakup and July 15th in harvest unit 3 and 5.
   4. A temporary bridge will be used to cross a stream on the access road. If stream is frozen no permit is required, if stream is not frozen county needs 30 day notice to procure chapter 30 permit.

E. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

F. OTHER:
   1. To comply with best management practices for invasive species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 48-19 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit 1 has a gap harvest prescription with an estimated average residual basal area of 3 ft$^2$ inside the gaps.
   2. Harvest unit 2 has a clear-cut prescription with an estimated average residual basal area of 0 ft$^2$.

B. HARVEST REQUIREMENTS:
   1. In unit 1 (the gap unit) there are 166 ft diameter orange painted canopy gaps spaced approximately 460 x 460 feet between gap centers (12-18 one dot orange painted trees on the perimeter facing in towards the gaps, with orange panels on the side and an orange slash on the back) harvest all hardwood, except oak 8 inches or less, and balsam fir stems as well as sever all trees 1” diameter and greater with in the orange painted canopy gaps.
   2. In unit 2 harvest all stems except for hemlock and cedar 2 inches and greater.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. In unit 1, has a good summer chance for operability (as determined by county).
   2. Unit 2: Approximately 3 acres of the sale area is located on wet ground, as noted on the map, and must be harvested under frozen or extremely dry conditions, as determined by the sale administrator. A reasonable effort, as determined by the sale administrator, must be made to harvest these wetter areas. If harvesting operations on the rest of the sale area occur under conditions that are not extremely dry or frozen, the contractor must still make a reasonable attempt to harvest as much of the wet areas as possible, without causing resource damage, as determined by the sale administrator. **However, the contractor will not be required to move equipment back in during a more suitable time if the attempt fails.**
   3. A snowmobile trail runs adjacent to parts of the sale. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers. If the primary haul route utilizes a portion of the snowmobile trail.
   4. Excessive damage (beyond normal wear and tear) to the snowmobile trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.
   5. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   6. Sale boundaries include red paint line, orange painted trees, a primary road, snowmobile trails, and an abrupt change to 10-year-old northern hardwood.
   7. Do not damage any survey monumentation.

D. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
I hereby submit my bid on timber sale number: 48-19

Description: Sec. 7,8,18 T50N R4W and Sec 13 T50N R5W

This Timber Sale is being offered: 
- Whole Tree Ton
- Roundwood (4" top cords)

My bid is based on (check one): 
- Whole Tree Ton*
- 4" Top Cord*

*The contract will reflect your selection.

TRACT 52-19 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit 1 has a clear-cut with reserves harvest prescription with estimated average residual basal area of 39 ft² for the western part of unit 1 and 55 ft² for the eastern part of unit 1.
   2. Harvest unit 2 has an overstory removal prescription with an estimated average residual basal area of 6 ft².
   3. Harvest unit 3 has a coppice with reserves harvest prescription with an estimated average residual basal area of 8 ft².

B. HARVEST REQUIREMENTS:
   1. In unit 1 harvest all hardwood stems 2 inches and greater except red oak and harvest all conifers except white cedar, hemlock, and white pine.
   2. In unit 2 harvest all ash and ironwood stems 2 inches and greater, harvest all other hardwood stems 6 inches and greater, except leave all red oak and all conifers.
   3. In unit 3 harvest all stems 2 inches and greater except for cedar, hemlock, white pine, and red oak.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Unit 1 is winter/frozen ground only for operability (as determined by the county).
   2. Unit 2 and 3 have a good summer chance for operability (as determined by the county).
   3. Unit 2 contains some small ponds that are scattered throughout the stand with mainly ash trees growing within the ponds. If the harvest equipment cannot reach all the trees (including non-ash) in a pond from the edge of the pond, the ponds will need to be harvested during frozen ground conditions.
   4. No paint boundary exists between the harvest units. The difference between units 1 and 2 is a dramatic elevation and species type change between swamp hardwood/conifer timber and upland timber. The same applies between units 1 and 3. The difference between units 2 and 3 is unit 2 has obvious signs of past management (this unit is receiving an overstory removal) whereas unit 3 has no apparent sign of past management.
   5. A snowmobile trail runs adjacent to parts of the sale. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Signage will be needed along the snowmobile trail to inform riders of logging and hauling activity. Avoid damage to signs and trail markers.
   6. Excessive damage (beyond normal wear and tear) to the snowmobile trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.
   7. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   8. Sale boundaries include red paint line, blue paint line, trails, and an abrupt change to recent clear cut (less than 5 years old).
   9. Do not damage any survey monumentation.

D. OTHER:
   1. This sale will be sold as a three (3) year contract. Contract extensions are not guaranteed.
   2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
I hereby submit my bid on timber sale number: 52-19  
Sold as a 3 year contract

**Approximately 34% Balsam Fir, 33% Spruce, 32% Tamrack, and 1% Other Conifer

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period. □ Cash □ Hold

TRACT 53-19 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a thinning prescription with an estimated average residual basal area of 114 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all orange marked red pine and all jack pine, balsam fir, and aspen 4” and greater.
   2. In unit A, leave all white pine, spruce, birch, oak, and unmarked red pine.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Harvest pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 54-19 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit 1 has an overstory removal prescription with an estimated average residual basal area of 6 ft².
   2. Harvest unit 2 has a gap harvest prescription with an estimated average residual basal area of 99 ft².

B. HARVEST REQUIREMENTS:
   1. In unit 1 (the overstory removal unit) harvest all hardwood stems 2 inches and greater except red oak and birch species 4 inches and less. Leave all conifers.
   2. In unit 2 (the gap unit) there are 82 ft diameter purple painted canopy gaps spaced approximately 200 x 200 ft between gap centers (6-10 two dot purple painted trees on the perimeter facing in towards the gaps with a purple slash on the back) harvest all hardwood stems “1 diameter and greater within the purple painted canopy gaps.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Both units 1 and 2 have a good summer chance for operability (as determined by the county).
   2. Bayfield county has obtained a temporary bridge permit for a stream crossing. The contractor is responsible for installing a temporary crane mat crossing (in compliance with the permit) at the designated location (see map). The county will provide 5 adequately sized crane mats for the crossing. Crane mats are located approximately 1/3 of a mile north of the sale along the east side of highway 27 (see map). Mats must be removed prior to completion of sale and moved to the Barnes Ranger Station. Stream crossing must be restored to a condition as per direction from the sale administrator.
   3. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   4. Sale boundaries include red paint line, blue paint line, a gravel pit and a drivable road.
   5. Do not damage any survey monumentation.

D. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 55-19 – HARVEST REQUIREMENTS
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a seed tree prescription with an estimated average residual basal area of 7 ft².
   2. Harvest unit B has a coppice with standards prescription with an estimated average residual basal area of 27 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all unmarked hardwood stems and balsam fir 2” and greater.
   2. In unit B, harvest all balsam fir and hardwood stems 2” and greater except oak.
   3. In unit A, leave all purple marked trees and leave all conifer except balsam fir.
   4. In unit B, leave all oak and all conifer except balsam fir.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   2. Approximately the eastern half of unit A and approximately the northeast ¼ of unit B are on flat ground with sandy soils. The remaining portions of the sale may require sale operations to occur when the ground is frozen or exceptionally dry conditions as determined by Bayfield County.
   3. In 2018, oak wilt was officially confirmed in Bayfield County. Currently this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six-mile radius of this timber sale, as determined by the county, the following seasonal restrictions will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

This map is not a survey of the actual boundary of any property this map depicts.
TRACT 57-19 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit 1 is an aspen coppice with an estimated average residual basal area of 0 ft².
   2. Harvest unit 2 is a scrub oak seed tree prescription with an estimated average residual basal area of 15 ft².
   3. Harvest unit 3 is a combination of oak, northern hardwood, and aspen seed tree with an estimated average residual basal area of 14 ft².

B. HARVEST REQUIREMENTS:
   1. In unit 1 harvest all hardwood stems 2 inches and greater.
   2. In unit 2 harvest all hardwood and balsam fir stems 2 inches and greater while leaving all other conifers, purple marked trees, and oak trees 4 inches and less.
   3. In unit 3 harvest all hardwood and balsam fir stems 2 inches and greater while leaving all other conifers, purple marked trees, and oak trees 8 inches and less.

C. HARVEST AND OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. In units 1 and 2 harvest operations are not restricted.
   2. In unit 3 harvest operation restrictions range from good summer change (61% of unit area), dry or frozen (34%), to frozen ground (5%), as determined by Bayfield County (see map).
   3. To access southern tip of unit 3, use suggested access route or cross the buffered less than 1-foot stream area when frozen ground as determined by the sale administrator.
   4. No paint boundary exists between harvest unit 1 and unit 3. The difference between units 1 and 3 is a dramatic species change (scrub oak to northern hardwood) and elevation change.
   5. A snowmobile trail runs adjacent to parts of the sale. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers. If the primary haul route utilizes a portion of the snowmobile trail.
   6. Excessive damage (beyond normal wear and tear) to the snowmobile trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.
   7. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   8. Sale boundaries include red paint line blue paint line, old logging roads, and drastic timber type changes to young aspen, and recent seed tree harvest (see sale map).
   9. The blue line indicates private property. No equipment or felled trees may cross the line.
   10. Do not damage any survey monumentation.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. Contractor will be responsible for culvert installation and material (gravel/rock) delivery (see attached 57-19 road project map).
   2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
Work must be completed and approved by the county prior to sale closeout.

All road work must occur during non-frozen ground conditions.

The Contractor will be required to deliver a total of 600 tons of 1 ¾" base coarse gravel and 400 tons of 3" minus fractured rock. The delivery location will be somewhere on or near the primary timber sale access road, as determined by the County. The Contractor will be responsible for all expenses associated with all rock and gravel.

At point 1, one 12"x24' culvert (steel or dual wall plastic) will be supplied and installed by the Contractor at the Contractor’s expense.

All fractured rock and coarse gravel quantities will be verified using a load ticket system.

Fractured rock and coarse gravel will be delivered, and culvert installed as specified by the county.

All rock will be fractured.

*Approximately 51% Red Maple, 15% Sugar Maple, 13% Basswood, 11% White Birch, 7% Yellow Birch, 2% Ash, 1% Other Hardwood
**Approximately 99% Fir, 1% Other Conifer

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period. Cash Hold

TRACT 01-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESERVATION:
   1. Harvest unit A has a clearcut prescription with an estimated average residual basal area of 0 ft².

B. HARVEST REQUIREMENTS:
   1. Harvest all conifer and hardwood stems 2" and greater.
   2. Sever all snags within the sale area.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Harvest pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   3. No decking of wood on the west side of Moore Rd.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 02-20 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
1. Harvest unit 1 has a clear-cut reserves harvest prescription with an estimated average residual basal area of 15 $\text{ft}^2$.
2. Harvest unit 2 has a shelterwood prescription with an estimated average residual basal area of 75 $\text{ft}^2$.
3. Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 11 $\text{ft}^2$.
4. Harvest unit 4 has an overstory removal harvest prescription with an estimated average residual basal are of 31 $\text{ft}^2$.

B. HARVEST REQUIREMENTS:
1. In unit 1 leave all cedar, hemlock, and red oak along with yellow birch, balsam fir, and black spruce 4 inches and less. Harvest all other stems 2 inches and greater.
2. In unit 2 leave all cedar, hemlock, and red oak. Harvest all other stems 2 inches and greater.
3. In unit 3 and 4 leave all cedar, hemlock, and red oak along with hard maple and yellow birch 4 inches and less. Reserve islands are encircled by red paint line. Do not harvest inside reserve islands.

C. HARVEST AND OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
1. Unit 1 and 2 are winter/frozen ground only for operability (as determined by the county).
2. Unit 3 and 4 are winter/frozen or dry ground only for operability (as determined by the county).
3. Access into the sale across non-county property is to occur during winter/frozen ground conditions only (as determined by the county).
4. No paint boundary exists between the harvest units. The difference between unit 1 and 2 can be determined by dramatic shifts from conifer to non-conifer species. The difference between units 1 & 2 (swamp units) and units 3 & 4 (upland units) can be determined via dramatic timber type changes and changes in elevation. The difference between units 3 and 4 is unit 3 has evidence of past management activity and unit 4 has no evidence of past management. Regardless units 3 & 4 have the same harvest requirements.
5. In the very bottom of Unit 2 between the red and blue paint lines there is a gap (roughly 100 ft) with no red boundary paint. Continue harvesting due east of last red pained tree until the blue paint line is reach. See timber sale map.
6. Sale boundaries include red paint line and blue paint line (see aerial map).
7. The blue line indicates private property. No equipment or felled trees may cross the line.
8. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
9. Do not damage any survey monumentation.

D. ACCESS AND ROADS:
1. Decking of wood along town roads will not be allowed without permission from Bayfield County.
2. Access through sale in part runs through private property with different but similar terms as county roads (see attached Road Access Map For Contractor Tract #02-20).

E. OTHER:
1. This sale will be sold as a three (3) year contract. Contract extensions are not guaranteed.
2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
Both woods roads on private property (north and south) may be used for timber sale purposes if the following conditions are met:

- Woods roads on private may only be used during frozen-ground conditions.
- Woods roads on private will be returned to original or better condition, as mutually agreed upon by the County and the landowner, at sale closeout and during any periods of inactivity (i.e. between frozen-ground seasons).
- Drainage structures along woods roads will be kept unobstructed (e.g. lead-off ditches) so drainage is not inhibited.
- The roads’ shape (a slight crown) will be maintained.
- The 2 graveled locations (see attached map) will be not cleared of their gravel during road opening/preparation.
- Gravel piled on site belongs to the landowner and may not be used for this sale.
- A permitted ford (approximately 134’ of rock over geotextile material) will not be bladed, thereby removing the existing rock. Additional rock may be provided by the contractor, if needed, to smooth the surface for hauling.
- Up to 5 trees along the woods roads may be cut to provide clearance, if necessary.

This map is not a survey of the actual boundary of any property this map depicts.
TRACT 03-20 – HARVEST REQUIREMENTS
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a coppice prescription with an estimated average residual basal area of 4 ft².

B. HARVEST REQUIREMENTS:
   1. Unit 1:
      i. Harvest all hardwood 2” in diameter and greater except leave all oak and yellow birch 6” in diameter and smaller. Leave all cedar, pine, and hemlock.
      ii. Leave all red painted trees; this includes boundary trees and scattered leave trees.
      iii. Harvest all spruce and fir 4” in diameter and greater.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries are red line and blue line.
   2. This sale is located on clay and wetland soils and therefore harvesting may only occur during frozen or exceptionally dry conditions, as determined by the sale administrator.
   3. 4-6 grouse trees were marked throughout the sale area. These trees are marked out in red paint with a ring and X. Harvest trees just above the red ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
   4. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Limited new roads will be needed.

E. OTHER:
   1. The blue line indicates private property. No equipment or felled trees may cross the line
   2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   3. This sale will have a 3-year contract period.

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a coppice prescription with an estimated average residual basal area of 2 ft².

B. HARVEST REQUIREMENTS:
   1. Unit 1: Harvest all hardwood 2” in diameter and greater except leave red painted leaved trees. Harvest all spruce and fir 4” in diameter and greater.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries are red line or adjacent to recent aspen harvests (less than 10 yrs old) as noted on the map.
   2. This sale is located on mostly clay soils and therefore harvesting may only occur during frozen or exceptionally dry conditions.
   3. 4-6 grouse trees were marked throughout the sale area. These trees are marked out in red paint with a ring and X. Harvest trees just above the red ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
   4. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Limited new roads will be needed.
   2. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

TRACT 06-20 – HARVEST REQUIREMENTS
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
1. Harvest unit 1 has a row thinning prescription with rows running north and south and an estimated average residual basal area of 100 ft².
2. Harvest unit 2 has a row thinning prescription with rows running north east to southwest and an estimated average residual basal area of 100 ft².

B. HARVEST REQUIREMENTS:
1. In both units, cut all pine and other species in every third row (cut one row, leave two rows). Cut rows are not marked with paint. Logger will determine cut rows to the satisfaction of the Sale Administrator.
2. Rows in unit 1 run north and south.
3. Rows in unit 2 run northeast to southwest.
4. Harvest all trees within 50’ of the center line of Moore Road.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
1. Sale boundaries consist of red paint line, roads, trails and abrupt timber type change to young red pine.
2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
4. Do not cut snags except for individuals that pose a safety hazard.

D. ACCESS AND ROADS:
1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:

TRACT 07-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a clearcut with reserves prescription with an estimated average residual basal area of 10 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all hardwood stems and jack pine 2” and greater.
   2. In unit A, leave all conifer except jack pine.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Whole tree harvesting and/or utilization of tops (≤4” diameter) will not be allowed.
   2. In 2018, oak wilt was officially confirmed in Bayfield County. Currently this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six-mile radius of this timber sale, as determined by the county, the following seasonal restrictions will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:
   1. A dog sled trail system affects this sale, as mapped. a) When snow is on the ground, maintain a packed snow base on dog sled trails. b) When snow is on the ground, do not block intersections with snowbanks or berms after plowing. c) on the weekend of the Apostle Islands Sled Dog Race, no hauling will be permitted on any trails used by the race during Saturday or Sunday mornings, as determined by the sale administrator.
   2. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   3. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 08-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a seed tree/coppice prescription with an estimated average residual basal area of 12 ft\(^2\).
   2. Unit 2: Harvest is an oak thinning with an estimated average residual basal area of 97 ft\(^2\).
   3. Unit 3: Harvest all trees within the purple painted gaps.

B. HARVEST REQUIREMENTS:
   1. Unit 1: Harvest all hardwood 2” in diameter and greater except leave all oak and birch 6” in diameter and smaller.
      Leave all conifer. Leave all purple painted trees.
   2. Unit 2: Harvest all orange painted trees, aspen, and white birch.
   3. Unit 3: Harvest all stems 2” in diameter and greater within the purple painted gaps.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries:
      i. Unit 1: Red paint, blue paint, timber type change or delineated by a road.
      ii. Unit 2: The northern piece has red paint line around the west and south portion. The north portion borders a recently harvest sale. The southern unit has no red paint around it.
      iii. Unit 3: The unit has red paint around it. The gaps within the unit are marked out in purple paint.
   2. Minimize damage to small diameter oak in Unit 1.
   3. The west portion of this, as noted on the map, has clay soils where care must be taken to minimize rutting.
   4. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Limited new roads will be needed.

E. OTHER:
   1. The blue line indicates private property. No equipment or felled trees may cross the line
   2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   3. In 2018, oak wilt was officially confirmed in Bayfield County. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by Bayfield County, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15th (or as otherwise determined by the county) and July 15th.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

Areas may be excluded from the sale (approx. 120 cords)
Unit may be excluded from the sale (approx. 25 cords)
TRACT 09-20 – HARVEST REQUIREMENTS
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a clearcut prescription with an estimated average residual basal area of 0 ft².
   2. Harvest unit B has an overstory removal prescription with an estimated average residual basal area of 0 ft².
   3. Harvest unit C has a clearcut prescription with an estimated average residual basal area of 0 ft².

B. HARVEST REQUIREMENTS:
   1. In all units harvest all stems 6” and greater.
   2. Cut all snags.
   3. Harvest all red painted trees.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries consist of red paint line, roads, right-of-ways, and abrupt type changes to marsh.
   2. Approximately six acres of the sale area is located on wet ground, as noted on the map, and must be harvested under frozen or extremely dry conditions, as determined by the sale administrator. A reasonable effort, as determined by the sale administrator, must be made to harvest these wetter areas. If harvesting operations on the rest of the sale area occur under conditions that are not extremely dry or frozen, the contractor must still make a reasonable attempt to harvest as much of the wet areas as possible, without causing resource damage, as determined by the sale administrator. However, the contractor will not be required to move equipment back in during a more suitable time if the attempt fails.
   3. From May 19th to October 16th care should be taken to avoid open sandy area with equipment and felled trees due to the possible presence of a rare animal.
   4. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   5. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   6. Do not damage any survey monumentation.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. This sale may be modified to include the following changes:
      i. The area located around the pond, the wet area and unit B, as indicated on the map, may be excluded from the sale.
      ii. Up to 2 acres of retention pockets may be designated within the sale area. If designated, as determined by the county, they will be marked out in red paint and excluded from the sale.
      iii. No harvest buffers may be installed around some or all of the marsh areas as indicated on the map. If installed, no trees will be harvested within the buffers.
   2. When combining all potential exclusions, a total of 26 acres of this sale may be removed from the contract (not harvested), as determined by the County. If the County decides to exclude the areas, as described above, the Contractor will be notified prior to the commencement of field work and provided an updated timber sale map.
   3. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 11-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a coppice with standards prescription with an estimated average residual basal area of 4 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all unmarked hardwood stems and 2” and greater and harvest all jack pine.
   2. In unit A, leave all purple marked trees and all conifer except jack pine.
   3. There are scattered small pockets of 2-4” aspen/maple regen throughout the sale (mostly in southern half). Minimize damage to these pockets of regen.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers.
   2. A dog sled trail system affects this sale, as mapped. a) When snow is on the ground, maintain a packed snow base on dog sled trails. b) When snow is on the ground, do not block intersections with snowbanks or berms after plowing. c) on the weekend of the Apostle Islands Sled Dog Race, no hauling will be permitted on any trails used by the race during Saturday or Sunday mornings, as determined by the sale administrator.
   3. Whole tree harvesting and/or utilization of tops (≤4” diameter) will not be allowed.
   4. In 2018, oak wilt was officially confirmed in Bayfield County. Currently this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six-mile radius of this timber sale, as determined by the county, the following seasonal restrictions will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   2. This sale includes 2 trees that are marked with a purple “X”. Operator must fell and leave all trees marked with a purple “X”. “X” marked trees should be cut 5 ft above ground level and should lie as close to the high stump as possible. These trees will create ruffed grouse drumming habitat.
I hereby submit my bid on timber sale number: 11-20

TRACT 12-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Aspen coppice harvest. The designated harvest area contains a residual area of 10%. This percent of the total area includes RMZs and red oak.

B. HARVEST REQUIREMENTS
   1. Cut all trees greater than 2” diameter, EXCEPTION:
      i. DO NOT HARVEST OR DAMAGE red oak.
      ii. DO NOT HARVEST OR DAMAGE marked Riparian Management Zones.

C. OPERATIONAL REQUIREMENTS and SEASONAL RESTRICTIONS:
   1. Harvest only during dry or frozen conditions, as determined by Bayfield County.
   2. Non-navigable areas of concentrated flow along the haul roads will require protection to cross, as indicated on map.
   3. Sale boundaries are red paint lines as indicated on map.
   4. RMZ boundaries are red paint lines as indicated on map.
   5. “Grouse” trees are marked with a purple “X.” These trees must be cut 5 ft above ground and should be left in place lying on the ground next to the cut stump.
   6. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. A small portion of this timber sale along Hwy 13 is DOT property as noted on the map. All stems must be severed within this unit, EXCEPTION do not harvest within marked Riparian Management Zone on end of highway right of way.
   2. Men working signs will be supplied to the contractor for work along Hwy 13 by the Bayfield County Hwy Dept. Do not damage any of the DOT yellow stakes and wooden posts marking the ownership boundary.
   3. A permit is required to work within the DOT ROW. Permit must be filled out by the contractor prior to harvesting. There is no cost to this permit. Bayfield County will facilitate the handling of this permit. Contractor must provide the County 30 days advanced notice prior to moving into the job to allow for the completion of the permit.
   4. Approximately 2 acres is located within the DOT right of way. This land is not part of the county forest and does not contain wood that is certified. An estimated 46 cords of non-certified wood are contained within this portion of the sale. The county will supply modified haul tickets for transporting the estimated volume of non-certified wood harvested from the DOT right of way.
   5. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   6. Do not damage survey monumentation. Any monumentation will be marked for avoidance by Bayfield County.

TRACT 13-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Aspen coppice harvest. The designated harvest area contains a residual basal area of 10%. This percent of the total area includes RMZs retention patches, and red oak.

B. HARVEST REQUIREMENTS

1. Cut all trees greater than 2” diameter, EXCEPT:
   i. DO NOT HARVEST OR DAMAGE red oak, yellow birch, and pine.
   ii. DO NOT HARVEST OR DAMAGE marked Riparian Management Zones or patches marked for retention.

C. OPERATIONAL REQUIREMENTS and SEASONAL RESTRICTIONS:

1. Harvest only during dry or frozen conditions, as determined by Bayfield County.
2. Non-navigable areas of concentrated flow along the haul roads will require protection to cross, as indicated on map.
3. Sale boundaries are red paint lines as indicated on map and natural boundaries.
4. RMZ boundaries are red paint lines as indicated on map.
5. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:

1. This contract requires County authorization for all road/landing construction and places other requirements on road construction and closure.
2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:

1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
2. Do not damage survey monumentation
3. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by the county, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

TRACT 14-20 – HARVEST REQUIREMENTS
The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Aspen coppice harvest. Residual 1 sq.ft./acre to 10 sq.ft./acre of white cedar, red pine, red oak, white pine, and elm.

B. HARVEST REQUIREMENTS
   1. Cut all trees greater than 2” diameter, EXCEPT:
      i. DO NOT HARVEST OR DAMAGE white cedar, white pine, red pine, or red oak.
      ii. DO NOT HARVEST OR DAMAGE red oak saplings.

C. OPERATIONAL REQUIREMENTS and SEASONAL RESTRICTIONS:
   1. Harvest only during frozen conditions, as determined by Bayfield County.
   2. This sale has several areas of concentrated flow to cross that will not require permits and may require crane mats. Bayfield County may have crane mats available for contractors use. If County mats are used, Contractor will be required to move the mats to the job site and then return the mats to a location designated by Bayfield County.
   3. Sale boundaries are red paint lines as indicated on map.
   4. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.
   3. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles.
   4. The primary haul route utilizes a portion of the snowmobile trail. Excessive damage (beyond normal wear and tear) to the trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
   2. Do not damage survey monumentation.

TRACT 15-20 – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Coppice with reserves treatment where an average of 5ft² of basal area will be retained throughout the entire sale area.

B. HARVEST REQUIREMENTS:
   1. Harvest all hardwood and jack pine stems 2” and larger.
   2. Do not harvest all red and white pine trees.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries consist of red painted lines and Moreland Lake Road.
   2. There is an old red line in the middle of the stand, disregard this old line. The western edge of the harvest area is Moreland Lake Road.
   3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   4. Whole tree harvesting is not permitted.
   5. Do not cut snags except for individuals that pose a safety hazard.

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

TRACT 17-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a coppice with standards prescription with an estimated average residual basal area of 7 ft².
   2. Harvest unit B has a seed tree prescription with an estimated average residual basal area of 12 ft².

B. HARVEST REQUIREMENTS:
   1. In unit A, harvest all unmarked oak stems greater than 8” and all other hardwood stems 2” and greater.
   2. In unit B, harvest all unmarked hardwood stems 2” and greater.
   3. In unit A, leave all oak ≤8”, purple marked trees and leave all conifer.
   4. In unit B, leave all purple marked trees and all conifer.
   5. This sale includes 2 trees that are marked with a purple “X”. Operator must fell and leave all trees marked with a purple “X”. “X” marked trees should be cut 5 ft above ground level and should lie as close to the high stump as possible. These trees will create ruffed grouse drumming habitat.
   6. Do not cut snags except for individuals that pose a safety hazard.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Approximately 1/3 of Unit A may require frozen or dry ground conditions, as determined by the county.
   2. No skidding, hauling, or debris allowed on snowmobile trail.
   3. Whole tree harvesting and/or utilization of tops (≤4” diameter) will not be allowed.
   4. In 2018, oak wilt was officially confirmed in Bayfield County. Currently this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six-mile radius of this timber sale, as determined by the county, the following seasonal restrictions will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:
   1. There are underground utilities located alongside the roads. Contractor should take all precautions in order to avoid damage to the underground utilities. The contractor should contact diggers hotline at least three (3) days prior to performing any road construction or work.
   2. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   3. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

**Special Restrictions:**

- Harvested pine must be hauled within 3 weeks between May 1st and August 31st.
TRACT 18-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a row thinning prescription with an estimated average residual basal area of 100 ft².

B. HARVEST REQUIREMENTS:
   1. Cut all pine and other species in every third row (cut one row, leave two rows). Cut rows are not marked with paint. Logger will determine cut rows to the satisfaction of the Sale Administrator.
   2. Cut all trees within 50’ of the center line of County Hwy A.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries consist of red paint line, roads or timber type changes to aspen.
   2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   4. Do not cut snags except for individuals that pose a safety hazard.
   5. Do not damage any survey monumentation

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
I hereby submit my bid on timber sale number: 18-20

*Average DBH is 6". Approximately 80% of the stems are greater than 5" DBH.
**Average DBH is 5". Approximately 50% of the stems are greater than 5" DBH.
***Approximately 95% Aspen and 5% other hardwood.

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $_________________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

Special Restrictions:
Frozen ground harvest only

This map is not a survey of the actual boundary of any property this map depicts.

Access route through private property (no road exists, mostly crossing open fields)
At the landowner's request there should be minimal soil disturbance within the field and food plot. Additionally, road width should be minimized between the field and the food plot.
TRACT 04-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a coppice prescription with an estimated average residual basal area of 0 ft².

B. HARVEST REQUIREMENTS:
   1. Unit 1: Harvest all hardwood 2” in diameter and greater except leave red painted leaved trees. Harvest all spruce and fir 4” in diameter and greater.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries: Happy Hollow road, red and blue paint lines.
   2. A powerline borders the east side of Happy Hollow road. Use care when harvesting near the powerline.
   3. No trees or equipment may cross the blue line except where agreed upon to access the timber sale.
   4. This sale is located on clay soils and to protect the soils on private land, sale may only be harvested during frozen ground conditions.
   5. 4-6 grouse trees were marked throughout the sale area. These trees are marked out in red paint with a ring and X. Harvest trees just above the red ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
   6. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Access to the back portion of this sale will be through private property (county has secured this access) as noted on the map. The temporary access trail will be across a couple fields with a short stretch of small diameter timber/brush between the fields. At the landowner’s request there should be minimal soil disturbance within the field and food plot. Additionally, road width should be minimized between the field and the food plot. Final location will be determined by the sale administrator as agreed upon with the landowner. Access may only be used when ground is frozen to minimize soil disturbance. The Contractor will be responsible for all damage to private land, as determine by the County. No decking of wood products will be allowed on private land.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

Special Restrictions:
>Harvested pine must be hauled within 3 weeks between May 1st and August 31st.

This map is not a survey of the actual boundary of any property this map depicts.
TRACT 21-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit A has a clearcut prescription with an estimated average residual basal area of 0 ft².
   2. Harvest unit B has a coppice with standards prescription with an estimated average residual basal area of 5 ft².

B. HARVEST REQUIREMENTS:
   1. In Unit A, harvest all conifer and hardwood stems 2” and greater.
   2. In Unit B, harvest all hardwood stems and jack pine 2” and greater.
   3. In Unit B, leave all conifer except jack pine.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   2. Whole tree harvesting and/or utilization of tops (≤4” diameter) will not be allowed.
   3. The blue paint line indicates US Forest Service property. No equipment or felled trees may cross the line.

D. ACCESS AND ROADS:
   1. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers.
   2. If the primary haul route utilizes a portion of the ATV trail, the following applies. Excessive damage (beyond normal wear and tear) to the ATV trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the ATV trail remains in a safe and acceptable condition.
   3. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   4. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

TRACT 23-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Unit 1: Harvest is a seed tree/coppice prescription with an estimated average residual basal area of 35 ft².

B. HARVEST REQUIREMENTS:
   1. Unit 1: Harvest all hardwood 2” in diameter and greater except leave all purple and blue painted hardwood. Harvest only pine marked with purple paint.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries are red line.
   2. The North Country trail runs through this sale as noted on the map. Do not harvest the blue paint trees, which mark the trail. 2-3 trail crossing locations will be approved by the sale administrator. Trail must be kept clear of debris.
   3. There are two small wetlands located within the sale unit as noted on the map. Do not harvest any trees within 15 of these wetlands. No paint line exists to designate these areas.
   4. 3-5 grouse trees were marked throughout the sale area. These trees are marked out in purple paint with a ring and X. Harvest trees just above the purple ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
   5. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:
   1. Limited new roads will be needed.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.

Totals 3936 1290 64 Total Minimum Bid = $29,348.60 Total Bid =

*Approx 92% red maple, 7% sugar maple, 1% misc.
** Approx. 78% red pine (avg. dbh 16 inches), 22% white pine (avg. dbh 22 inches)

Bids will be awarded based upon total timber sale bid value. All bids must meet or exceed the minimum advertised price per species and per product. Failure to do so will result in a rejected bid.

Bid Price is based on unpeeled products.

Enclosed is a bid deposit in the amount of $______________, which represents 10 percent of the stumpage value based upon my total bid. If declared the successful bidder, the bid deposit will be cashed and credited towards the required 15 percent performance bond.

If declared the successful bidder for this timber sale, I agree to execute a contract of sale, furnish an approved performance bond amounting to 15 percent of my total timber sale bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date.

If declared the successful bidder for this tract, indicate whether you would like to have your enclosed bid deposit cashed and applied towards your 15 percent performance bond, or held (not cashed) to be replaced with a letter of credit. If you choose to have the deposit held, we will hold it for 10 business days immediately following the auction date. After 10 days, it will be cashed and credited towards the 15 percent performance bond. You can still replace the bid deposit (plus the additional 5 percent) with a letter of credit at any point within the 30 calendar day time period.

Special Restrictions:
Harvested pine must be hauled within 3 weeks between May 1st and August 31st.
TRACT 24-20 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:
   1. Harvest unit 1 has a row thinning prescription with an estimated average residual basal area of 95 ft².

B. HARVEST REQUIREMENTS:
   1. Cut all pine and other species in every third row (cut one row, leave two rows). Cut rows are not marked with paint. Logger will determine cut rows to the satisfaction of the Sale Administrator.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:
   1. Sale boundaries consist of red paint line, roads or timber type changes to aspen or young jack pine.
   2. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
   3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
   4. Do not cut snags except for individuals that pose a safety hazard.
   5. Do not damage any survey monumentation

D. ACCESS AND ROADS:
   1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
   2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
   1. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
