

If you split your time between homes or own a second home, you can help the census be more accurate and efficient by responding appropriately.

**Vacation home? Lake cabin?
Complete the 2020 Census
for your second home.**

When you get to the census question on number of people in the household, if there is no one who usually lives or sleeps at the address for your second home, answer ZERO.

If you do not self-respond, a census taker will visit your home in person to ask the census questions.
