- Harvest Requirements:**
- Sale is a jack pine clearcut being sold on a Ticket Scale Basis
 - Sale boundaries are red line, road, younger red pine, younger jack pine, trail.
 - Prescription: Clearcut - Harvest all merchantable stems. Sever all non-merchantable stems 2" at dbh and greater. Cut all snags. Any dead trees that the contractor chooses to utilize will be paid for at the contract rates.
 - This sale will require some new road construction and some road improvements
 - New Road (3,700 ft): Minimum 24 ft corridor cleared and stumped (clearing debris must be scattered and not piled). Road requires a 16 ft deck that will be crowned and ditched with organics incorporated as much as possible.
 - Road Improvement (1,300 ft): Road must have a 16 ft running deck that will be crowned and ditched with organics incorporated as much as possible. Harvest all merchantable timber within 50 ft of the road.
 - There is red line within the sale area that runs east-west. Those red painted trees need to be harvested. See map for details.
 - To comply with the Best Management Practices for Invasive Species: Prior to moving equipment onto or off of the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
 - Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
 - Do not damage any survey monuments.
 - This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
