

Insured, state licensed contractor needed to complete project in Washburn area. Remaining work is estimated to take 3-4 days. Must be registered as a CLTS provider or complete the registration if they are not, and bill the third party administrator for payment. For more information, please contact Brynna Watters-Moffitt at 715-373-3352 or brynna.watters-moffitt@bayfieldcounty.wi.gov.

Home Modification-Basement Therapy Room

Remaining Work: Room size approximately 22'6" x 11'

- Cut out and trim, rectangular openings (2-3) in 2 upper walls to aid airflow and for natural lighting to enter the finished room.
- Drywall mudding/sanding to touch up various areas of ceiling and walls
- One more coat of paint on walls, ceiling, side of the staircase, and at the bottom of the steps.
- Paint natural beige color from landlord's paint on wall above and around staircase (where damage was done to the wall).
- Switch out the door handles (currently with pin hole locks) with new door handles (on-site, no need to purchase).
- Trim work: Wood trim around all doors (3), around HVAC on ceiling
- Replace chipped scrap wood where stair railing is currently attached to the wall, with planed, stained or painted wood.
- Trim or paint the top of the partial drywall wall at the bottom of the staircase.
- Install Cocoon Swing to ceiling. Hardware still needs to be purchased. Blocking for swing attachment was installed inside ceiling and is documented with pictures that will be provided.
- Sand/fix any rough spots, splinters in basement stairs prior to painting.
- Paint basement stairs with grey paint (color to be chosen by client's mother) with added sand in paint to prevent slipping.
- Move light fixture that is in the laundry room since it was installed too close to the door.
- Install wall mats (on-site, no need to purchase).

Please use a drop cloth/plastic on the floors when working. Clean up at the end of the day with a broom and dustpan, mop as needed for the dust.
