## Comprehensive Community Service Program (CCS)

**Informational Guide**

## WHAT IS CCS?

A recovery focused, integrated behavioral health program for adults with severe mental illness and/or substance use disorders and children with severe emotional disturbance.

- Provides coordinated behavioral health and psychosocial rehabilitation services
- Assists individuals to use professional, community and natural supports
- A recovery-based approach that includes family and other supports
- Provides individualized, consumer-centered service plans
- Is a unique combination of client-direction and professional input
- A community based program where most services are provided in the consumers' home and local community
- Peer support services can be included

## CCS PROGRAM SERVICES

Services provided under CCS are individually determined through the assessment and services planning process. Possible services could include:

- Communication and interpersonal skills training
- Community skills development and enhancement
- Diagnostic evaluations and specialized assessments
- Employment related skill training
- Medication management
- Physical health and monitoring
- Psycho-education
- Psychotherapy
- Recovery education and illness management
- Substance abuse treatment
- Rehabilitative residential supports
- Crisis prevention and management

## RECOVERY TEAM

A team is formed for each CCS Consumer that includes: the Consumer, a Service Facilitator, a Mental Health Professional, Service Providers and any other individuals (friends, family, etc.) that the Consumer wishes to include for advocacy and support.

## CCS VISION

- To provide psychosocial rehabilitation services in order to reduce symptoms and restore consumers to the best possible level of functioning and independence
- Provide a wraparound model that is flexible and consumer directed
- Services focus on supporting successful living in communities and providing access to jobs, housing, transportation, health, educational, social, spiritual and recreational resources
- Meaningful participation of consumers and their chosen support systems and/or families
- Consumers are empowered to take control of their lives and are given the resources and skills to be responsible for their actions and decisions
- Services are comprehensive, culturally relevant and use all available resources in order to meet the needs of consumers, families and communities
