Twp: 50N	Range: 5W	Sec: 13,24	Compartment: 32,51																							
Township: Bayfield			Stand: 7,30,13																							
Soil: Clay loam	Reforestation Code: N/A	Tract Number: 54-16																								
Topography: Gently Rolling			Contract Number:																							

Harvest Requirements:

- Sale is being sold on a Ticket Scale Basis
- Sale boundaries consist of red paint line, powerline right of way, young aspen, or roads.
- In both units, leave all purple marked trees and leave all apple trees. Harvest all merchantable timber and sever all non-merchantable stems 2" in diameter and greater.
- The optional crossing indicated on the map is a drainage that crosses the sale unit at the point indicated on the map. This crossing will require some protection measures to cross if used. Consult with sale administrator prior to performing any work on this crossing. An alternate route to access the northwest finger of the sale area may be the trail located in the stand to the north.
- No equipment will be allowed within the powerline right of way and caution must be used when felling trees along the powerline.
- Sale operations may only occur when the ground is frozen unless written permission is granted by Bayfield County.
- Do not cut snags except for those that pose a safety hazard.
- To comply with the Best Management Practices for Invasive Species: Prior to moving equipment onto or off of the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
- Decking of wood along town roads will not be allowed without permission from Bayfield County.
- If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
- This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
