Legend
- Red Pine 2nd Thinning
- Aspen Clearcut
- Town Roads
- Snowmobile Trail
- Trails
- Sections

Harvest Requirements:
- This sale is a 124-acre red pine 2nd thinning with a 3-acre aspen clearcut being sold on a Ticket Scale Basis.
- Sale boundaries are identifiable on the ground by abrupt changes in timber types (aspen and previously-thinned red pine plantations) or by Banana Belt Road.
- Within the red pine plantation, harvest all orange-painted red pine as well as all merchantable aspen and jack pine.
- Within the aspen stand, harvest all merchantable hardwood and jack pine, and sever all non-merchantable hardwood stems 2” in diameter and larger.
- If whole-tree harvested, 1 in 10 tops less than or equal to 4” diameter must be left scattered across the site.
- Minimize damage to residual red pine stand.
- During winter harvesting the snowmobile trail must be kept unobstructed and in a packed-snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles.
- Harvested pine cannot be kept on the Bayfield County Forest for more than 3 weeks from May 1st to August 31st.
- Do not damage any survey monuments.
- To comply with the Best Management Practices for Invasive Species: Prior to moving equipment onto or off of the sale area, scrape or brush soil and debris from exterior surfaces of the logging equipment.
- Decking of wood along town roads will not be allowed without permission from Bayfield County Forestry Department.
- This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure. (refer to Section 17)
